WARRANTY POLICY

Buhler Manufacturing products are warranted for a period of twelve (12) months (90 days for commercial application) from original date of purchase, by original purchaser, to be free from defects in material and workmanship under correct, normal agricultural use and proper applications.

Buhler Manufacturing's obligations under this warranty shall be limited to the repair or exchange, at Buhler Manufacturing's option, of any Buhler Manufacturing product or part which proves to be defective as provided. Buhler Manufacturing reserves the right to either inspect the product at the buyer's location or have it returned to the factory for inspection.

The above warranty does not extend to goods damaged or subject to accident, abuse or misuse after shipment from Buhler Manufacturing's factory, nor to goods altered or repaired by anyone other than an authorized Buhler Manufacturing representative.

Buhler Manufacturing makes no Express Warranties other than those, which are specifically described. Any description of goods, including any references and specifications in catalogues, circulars and other written material published, is for the sole purpose of identifying goods and shall conform to such descriptions. Any sample or model is for illustrative purposes only and does not create an Express Warranty that the goods conform to sample or model shown.

The purchaser is solely responsible for determining suitability of goods sold. This warranty is expressly in lieu of all other warranties expressed or implied. Buhler Manufacturing will in no event be liable for any incidental or consequential damages whatsoever. Nor for any sum in excess of the price received for the goods for which liability is claimed.

WARRANTY CLAIMS:

Warranty requests must be prepared on Buhler Manufacturing Warranty Claim Forms with all requested information properly completed. Warranty Claims must be submitted within a thirty (30) day period from date of failure repair.

WARRANTY LABOR:

Any labor subject to warranty **must** be authorized by Buhler Manufacturing. The labor rate for replacing defective parts, where applicable, will be credited at 100% of the dealer's posted shop rate. Defective parts will receive an extra 10% discount to assist with freight or other incidental costs.

GOVERNMENT LEGISLATION:

Warranty terms and conditions are subject to Provincial or State legislation.

80 SERIES BLADE ASSEMBLY INSTRUCTIONS

1. Remove the Blade Pin (#4) and the Clamp Plate (#5) from the blade assembly. Insert the King Pin Weldment (#6) into the blade assembly and assemble the Blade Pin and Clamp Plate using the hardware supplied.
2. Slide the Arm Weldment (#8) onto the King Pin Assembly. The Arm Weldment is held in place using a 3 1/2" O.D. disk (#42) and a 3/4" x 2" bolt and lock washer (#43 & #44).
3. Bolt the Stand (#7) to the Arm Weldment.
4. Remove the Arm Swivel Pin (#12) from the Hitch Weldment (#9). Slide the Hitch Weldment on to the Arm Weldment and connect using the Swivel Pin. The pin is held in place with a hex bolt and lock nut.
5. Connect the two mechanical links and hydraulic cylinder. Angle Cylinder (#35) is a 3" x 12" cylinder which controls the angle of the arm. Mechanical link (#40 & #41) controls the tilt of the blade. Mechanical link (#10 & #11) controls the offset of the blade. Optional cylinders (#34 & #36) are available for both mechanical links for the 150 series.
6. Attach hydraulic hoses to the hydraulic cylinder. Bolt the Hydraulic Hose Holder (#39) to the hitch.
7. Recheck and tighten all bolts. Grease the bushings at both ends of the Arm Weldment.
8. Optional Wheel Kit: Bolt the Wheel Kit Bracket (#56) at the end of the Wheel Kit Arm to the back of the blade using 3/4" x 2 1/4" hex bolts, lock washers and hex nuts (#60, #61, & #44). Mount the wheel and tires to the Axle (#58). The shaft at the top of the axle fits through the bushing at the end of the arm and is held on by a washer (#65) and cotter pin (#64). Connect the Ratchet Jack (#57) to the Arm. The Ratchet Jack is used to control the cutting depth of the blade. Grease the bushings at both ends of the Wheel Kit Arm.
